

## **Call for SERB Student Internship at ICAR-IIOR, Hyderabad**

The Internship is aimed at providing opportunities to the students pursuing Post Graduate degree to get research exposure and acquire skills in the area of host plant resistance. The selected intern will be associated with the research activities under the project titled “Unravelling the genetics of shoot and capsule borer (*Conogethes punctiferalis*) resistance in castor (*Ricinus communis* L.)”. The selected intern will receive Rs. 5,000 per month as stipend for a period of two months (any two-month period from November 2023 to February 2024) as per Norms of DST-SERB.

### **Qualifications**

- Students pursuing Master’s degree with specialization in Entomology/Genetics

### **Documents required**

- Curriculum Vitae (CV)
- No Objection Certificate from the present institute

### **How can you apply?**

- Send your CV giving full details of academic records and experience with self-signed photocopy of supporting documents in a single PDF file through email at [p.duraimurugan@icar.gov.in](mailto:p.duraimurugan@icar.gov.in)

### **Important Dates**

- **Application Deadline: 20<sup>th</sup> October 2023**

### **Selection Criteria**

- The shortlisted candidates (based on the CV) will be informed of the virtual interview through email. The selection will be based on the performance in the interview.

### **Terms and Conditions**

- No TA, DA will be provided.
- No other claim will be entertained.
- The internships are only for a duration of two months and will end after the completion of two months from the date of joining.
- Once selected, the student is required to provide a ‘No Objection Certificate’ from his/her present institute to be able to attend the research work at ICAR-IIOR for a period of two months.
- The selected student has to make his/her own arrangements for accommodation and transport.
