

## ICAR- IIOR procured a new drone in Agri-Drone Project

ICAR- IIOR procured a new drone under ICAR funded Agri-Drone project. The Agri-drone was calibrated and tested in demonstration plots of oilseed crops viz., groundnut and sunflower at IIOR-Narkhoda Research Farm on 01/02/2023.

Dr. R.K.Mathur, Director, ICAR-IIOR, all scientists, Sr. AO, Sr. FAO, field technicians, students supporting staff, skilled helpers participated in the demonstrations. Later, Director ICAR-IIOR reviewed and monitored the ongoing research projects and demonstration plots.

As a part of the project, demonstration of Agri-drone technology in villages of Siddipet, RangaReddy, Nagarkurnool, SangaReddy and Nizamabad districts shall be taken up for spraying of Agro-chemicals in oilseed crops during the current season.
